SUBSCRIPTION \$2.00 PER YEAR

BAY ST. LOUIS, MISS., FRIDAY, AUGUST 17, 1951

VOL. 60 — NO. 35

Observations...

By the Editor

We have a request from Mrs. Theo Tudury, Hancock County Chairman for Infantile Paralysis, asking for the help and cooperation of every one in a cleanup drive for the City and County. You are asked to cut all weeds and tall grass in areas in and around your home... to burn and bury all garbage and trash... to destroy all containers of stagnant water... to clean all ditches and drains... to disinfect if possible... The plea to join in a clean up drive is not intended to cause any alarm, but is for the purpose of the prevention of the spread of germs and disease, which is most vital to public health... and while on this subject may we suggest to the city and county authorities that they exercise some power over the dumping of garbage and trash along the streets of the City and along the County roads... The dump on Easterbrook street is not a very healthy situation, and if one wants the pleasure of holding his nose, he should drive out Nicholson avenue, just outside of the town limits of Waveland... We have heard complaint after complaint about this situation, and some effort should be made to stop it... "No Dumping" signs do not seem to be very effective. It is going to take more stringent measures... And above all, we think that there should be a public dumping ground, and that all of this trash and garbage should be burned when it reaches this spot... It may cost a little money, but a life is worth something, too... Probably a problem for the County health department to work out with the officials...

The members of Pere Le Duc Council, Knights of Columbus of Bay St. Louis, will go to Picayune Sunday morning to attend the dedication services of St. Charles Borromeo Catholic Church of which Reverend Father John Niemeyer, former assistant at Our Lady of the Gulf, is Pastor... The original church built at Picayune, was constructed through the aid of the late Bob Williams of Bay St. Louis and Picayune, a non-Catholic... The new church, a credit to the parish at Picayune, was designed by William Burke architect of New Orleans, and is finished in rose colored brick veneer... The knights will leave from the home on Main street, at 8:30 A. M.

The issues are growing hot in the Governor's race with Hugh White and Paul B. Johnson the contestants in the second primary... and as the date of the election grows nearer the fur is going to fly faster... The candidates are certainly trying to inform the voters of their position on various matters, but we long ago made up our minds that we were going to vote for Hugh White for Governor, and that we were going to vote for our fellow newspaper man, Jimmie Arrington, for Lieutenant Governor. This we did in the first primary; and we are going to do it again, God willing... While on the subject of election, if it is necessary for you to vote an absentee ballot you may do so starting today, Friday, August 17... It is not necessary to make application for ballots to be sent to soldiers if they voted in the first primary... Ballots will be mailed by the Clerk of Courts to them again, upon the same application... For the civilian absentees, it is necessary for them to again make application... Every qualified voter should try their dead level vote in the second primary August 28; many who were qualified failed to vote August 7.

ROTARY DISTRICT GOVERNOR TO VISIT BAY ORGANIZATION

FHA Farm Tenant Funds Available For '52 Fiscal Year

T. B. Fetherree, State Director of the Farmers Home Administration, has announced that direct loan funds in the amount of \$1,035,109.00 have been allocated to the State of Mississippi for making Farm Ownership loans during the 1952 fiscal year.

Based upon the Continuing Resolution of the Congress, this allocation has been made on the basis of farm population and the prevalence of tenancy in the State. These funds are available for making Tenant Purchase, Farm Enlargement and Farm Development loans. As in the past, veterans will continue to receive preference.

The services of the Farmers Home Administration are available through the County Offices, which are usually located in the county seats of the various counties in the State. At the local office, applicants may obtain information on eligibility requirements for these loans. All applications are reviewed for determination of eligibility by a local County Committee composed of three members two of whom are farmers.

In the light of current real estate values, it is of interest to farmers to know that funds are available to qualified applicants for the purpose of enlarging or developing inefficient family-type farm units into efficient family type farm units.

J. C. Dabney Talks Of Progress At Bay Rotary

An interesting short resume of the growth and wide spread benefits of Southern Bell Telephone Co. was presented at the Bay Rotary luncheon Wednesday when Manager J. C. Dabney, Gulfport, addressed the club.

Dabney confined his talk mostly to the coast telephone service, giving special recognition to Bay St. Louis.

The speaker gave a short overall picture of the growth of telephone service in Mississippi and said that in the state there has been a ten per cent growth in population - 1,932,000 in 1945 to 2,183,000 in 1951. During these years, he said there have been 247-071 applications for telephones and 230,689 have been filled.

"The telephone company is made up of a lot of little people", Mr. Dabney said.

Turning to Bay St. Louis, Mr. Dabney said that in 1940 there were 500 telephones in Bay St. Louis and today there are 1700. He stressed especially the telephones in the rural section and cited the number at Kiln and what service has been rendered to that community.

Two special improvements in telephone service which Mr. Dabney named were the Coaxial cable, which is finding more ways to do things with less, and the research laboratory.

Be sure and cast your vote in the Second Primary, Tuesday August 28.

Altar Society To Attend Mass

Members of the Altar Society of the Gulf Coast Society will attend 7:00 o'clock Mass Saturday morning, August 18, and receive Holy Communion in a body.

All members are requested to attend and to sit in the front pews reserved for the occasion.

Be sure and cast your vote in the Second Primary, Tuesday August 28.

It is hoped that everyone will contribute to this cause because the library is an asset to the town.

The children are being benefited; young people are given the right type of reading; older people find it helpful for reference work and lighter reading; and students find it a necessity during the school session. If its radius of helpfulness reaches this far the citizens of the County will realize their part in helping to keep the library in good books by contributing each year, once a year, to the book fund.

One employed lady gives \$1.00 of her salary each month to the library; think what could be done if 200 persons gave a dollar a month.

Clets Kay and Paul M. Miller each drop a penny in a bank for each book they read; if 100 children did this, a nice sum would be realized each Tag Day.

If the taggers do not approach you Saturday, August 18, approach them and give your donation. If you did not receive your card, call the library, Phone 448, and offer your contribution.

4800 Votes Cast L W V Announces

The League of Women Voters of Bay St. Louis announced that there were approximately 4,800 votes cast in the primary election held August 7 out of a possible 5,500 votes.

While this is not as large a number of ballots as the League would like to see cast, it is an increase of 350 or approximately 9% over those cast in the last primary election, Mrs. Paul M. Miller, president, stated.

The main objective of the League is to promote active, intelligent participation in government, and to bring the voters to the polls to exercise their duty of voting is the first step in obtaining this objective.

In order to hold this increase in votes cast, the League wishes to remind all voters to be at the polls August 28 to cast their votes in the second primary and to have with them their poll tax receipts for 1949 and 1950.

Those voters who commute and will be away at the hours the polls are open will need an absentee ballot, Mrs. Miller added.

These may be obtained from the office of the Clerk of Courts. Anyone who voted an absentee ticket August 7, and who is still out of town, will need to file a second application for a ballot.

If you know of anyone who needs to do this please obtain an application from the Clerk of Courts and mail it to them so that they may vote in this second election.

The election managers have asked that those people who can, please come to the polls from 9 a. m. to 10 a. m. or from 2 p. m. to 5 p. m. to avoid waiting in line during the rush hours.

The League of Women Voters of Bay St. Louis will have a Motor Car Service for the second primary. If transportation to the polls is needed, call Mrs. Leo Seal at 164 or Mrs. Charles Johnson at 754 and they will arrange for transportation.

Go to the polls August 28 and vote for the men who will be your leaders for the next four years.

Leo Seal, president of the Hancock Bank and bridge trustee, together with State Treasurer Robert May and Highway Commissioner Chairman Sidney Roebuck, is presently in Chicago to complete the job of authenticating the \$845,916 bond issue which will finance the construction of a new concrete toll bridge across the Bay of St. Louis.

They are meeting with representatives of the bond buyers, A. C. Allen and Associates and Cutler-Chapman and Associates. The \$8 1/2 million bond issue will cover the construction of the bridge and its approaches.

LOCAL SCENE

According to Mr. R. C. Neely, office manager, Merritt - Chapman and Scott, bridge contractors, preliminary work is starting to move along. Purchase orders are expected to arrive soon.

One crane has already arrived and a dredge is expected in the Bay in a couple of weeks.

The J. C. Rolands Visit In New York

Captain and Mrs. J. C. Roland Jr., and children, who are now residing in New York where Captain Roland is stationed with the U. S. Army, had the novel experience of performing on television during a recent visit in New York.

As guests of the Radio Corporation of America Exhibition Hall, they mounted a brightly lit platform on which a television camera was trained. Then they watched themselves "perform" on a television screen which faced the platform.

The R C A Exhibition Hall in Radio City is one of New York's main gathering places for out-of-town visitors, and houses the largest free electronic exhibit in the metropolitan area.

Other places visited by Captain and Mrs. Roland and daughters included Rockefeller Center, Empire State Building, the Queen Elizabeth and the USS Missouri.

Seven neighboring counties gave me a clear majority over three opponents. Through the loyal support of my friends I led the ticket in 56 counties. I am deeply grateful.

I earnestly solicit a continuation of your efforts as well as that of all other Mississippi citizens interested in clean, honest and efficient government. Together we will win a great victory.

CARD OF THANKS

TO THE PEOPLE OF BEAT 4 HANCOCK COUNTY, MISS.

I wish to express my sincere thanks and gratitude for the splendid vote given me in the First Primary.

Your many votes which placed me in the Second Primary is a vote of confidence for which I am profoundly grateful. It was indeed a pleasure to meet you, talk to you and discuss the problems that have created in the last three and a half years in Beat 4 and nothing having been done about them. My faith in Beat 4 and Hancock County is keener today than ever for the People of Beat 4, Hancock County, Mississippi.

My opponent wants to take credit for things that has already been done, for example the "Concrete Bridge" that is located in Fenton, Mississippi. I am the only man who has ever served as your Supervisor in Beat 4, that gave to the People of Beat 4, hard surfaced or Black Topped any of the roads. These roads are in use today with very little maintenance cost.

I promise to do all within my power and it can be done to rebuild and black top the Kiln-Fenton Road to the Harrison County Line, and the Kiln-Lectown Road to the Pearl River County Line, and to make every effort to have the Highway Department surface the Kiln-Poplarville Road.

I earnestly solicit your support in this Second Primary on August 28, 1951 and the People of Beat 4 to elect me as your Board of Supervisor of Beat 4, and will give the People of Beat 4 a progressive Administration during the next 4 years.

Manufacturer Of Hancock County Invited To Exhibit

SMALL MANUFACTURERS OF HANCOCK COUNTY INVITED TO ATTEND ARMED SERVICES EXHIBIT TO BE HELD IN ATLANTA

A special invitation to small manufacturers of Hancock County to attend an exhibit of products the Federal Government is buying under its multimillion dollar procurement program, to be held in Atlanta, September 10, 11 and 12 has been extended by the Armed Forces Regional Council for the Southeast.

The Council, comprising the Army, Navy and Air Force, is sponsoring the exhibit, which will be held in the new exhibit hall of the Atlanta Biltmore Hotel, so that those firms interested in serving as subcontractors in the fulfillment of government contracts may be afforded first-hand information as to what the United States is buying from prime contractors and how they might fit into the procurement picture. The United States Department of Commerce is cooperating in the project.

Lieutenant-Colonel Robert R. Kay, of the United States Air Force, has been appointed project officer for the exhibit with headquarters at 770 Spring Street, Northwest, in Atlanta. According to Colonel Kay, prime contractors who sell goods to the government located in a number of sections of the Southeast have engaged space for the displaying of their goods, with the result that hundreds of different items will be exhibited.

The Atlanta exhibit will constitute the "greatest single opportunity" for smaller manufacturers in the region to discuss the capacity, productivity, facilities and ability of their own plants to participate in the government purchasing activities with representatives both of prime contractors as well as the armed services.

"We are not promising any actual contracts as a result of the exhibit, but we are confident that it will be of intrinsic value to many small manufacturers in the way of educating them to just what the government now wants in its national program of defense, and just about how they may be able to participate in the defense work," Colonel Kay said.

Recent figures from the Munitions Board showed that firms in the Southeast had sold goods valued at nearly half a billion dollars from July of last year to April of this year, which leaves little doubt as to the potentialities of the government's purchase program, it was stated.

Jack Dempsey To Appear In Star-Studded Hadacol Caravan

Former heavy-weight champion, Jack Dempsey, will be among the stars on Senator Dudley J. LeBlanc's Hadacol Good Will Caravan which plays in Mississippi. The Manassas Mauler first won national acclaim when as a 183-pound fighter he knocked out 300-pound Jessie Willard.

Two of Dempsey's toughest fights were with George Carpentier in France, and with Louis Firpo who knocked Dempsey out of the ring. He has always been known for his speed and his 6-inch punch which none could survive.

Since his retirement, Dempsey has been making personal appearances and refereeing boxing and wrestling matches. He served as a Commander in the United States Coast Guard during the war.

Another former member of the Coast Guard on the Hadacol Caravan is Rudy Vallee, who with his Connecticut Yankees, made for himself one of the greatest names of early radio.

Other stars in the spectacular lineup of talent are Hank Williams and Minnie Pearl of Grand Ole Opry; four native New Orleansians, who have made great names in show business—Candy Candido, the "Peelin' mighty low" man of the Jimmy Durante show; Sharkey Bonano who brings with him his Kings of Dixieland; Emile Parra, dancer and singer; Ann Maucelle who was Miss New Orleans of 1949 and is a phenomenal acrobatic dancer. The Los Gatos Brothers known as the Acro-Cats do a sensational strong arm act, and young Lee Marx who is America's most unique juggler performs.

Senator LeBlanc will play his show extravaganza in Hammond, La. at the Southeastern College Stadium and in case of rain at the Student Center on Saturday, Aug. 18th.

In Biloxi, Miss. at the High School Football Field on Sunday Aug. 19th. In case of rain it will play at the U. S. O. Building.

In Mobile, Ala. at Hartwell Field and in case of rain at Ft. Whiting Army on Aug. 20th.

All performances will start at 7:00 p.m. and in instances where the crowd cannot be accommodated, two shows will be played.

Admission is by Hadacol box ton, two for adults and one for children 12 years of age and under.

—Glen Blaize has returned from Violet, Louisiana, where he has been visiting his grandparents.

CONSULTATION WITHOUT CHARGE

To The Voters of Beat Two, Hancock County.

In humble appreciation I want to say "Thank You" to my many friends in Beat Two who made victory possible for me in the first primary election on August 7.

I want to assure them that I shall do all in my power to continue to perform the duties of my office in the same manner as I have in the past, ever thoughtful of the welfare of the people of my beat, and with the interest of the county as a whole uppermost in my mind.

Again I say "Thank You", assuring you that I shall be ever grateful for the support you gave me. I am,

Respectfully,

FRANK KELLAR

JUST A FEW WORDS FROM ED P. ORTTE TO THE PEOPLE OF DISTRICT FIVE

I wish again to thank you for your splendid support in the first primary. Also I want to thank the seven independent candidates who were also candidates for Supervisor in the first primary for their support that they are giving me at this time.

I am a candidate free and independent of any ring, clique, or clan. A convincing demonstration of the fact is that SEVEN OF THE EIGHT GENTLEMEN who ran for Supervisor in the first primary INDEPENDENT and FREE from ring influence, and who were eliminated are now supporting me actively, and they, along with the people who consider the situation carefully realize that I cannot be dictated to or controlled by the MAYOR OF WAVELAND or those who dictate to him.

I ask the people to consider the near financial catastrophe of county government and high taxes when the county was controlled by organized politics in years gone by. I ask the people to think of the wonderful record we have made through the last three and one half years.

I have done all in my power to be fair to all the people of my county and district. I have saved the taxpayers bond issues and high taxes for beach and road repair; all work was untouched by ring control or influence.

My opponent is the same man who ran against me four years ago and is now supported by the same group who supported him then. No gang, or political group as the people know, has been able to dictate to me.

A. C. MITCHELL, Clerk, JOHNSON SHAW and FRANK KELLAR, Supervisors, were re-elected in the 1st primary - in re-electing me in the 2nd primary you will have your winning team back in office for another 4 years.

If you will carefully and conscientiously consider my record for the past 3½ years as your president and board member, I sincerely believe you will give me a vote of confidence. If you will do this, I will be forever grateful, and I assure you that I will strive at all times to merit the confidence reposed in me.

Sincerely your friend,

Ed P. Ortte

CIVIL SERVICE NEEDS STENOS

Typists and stenographers in the New Orleans and Gulf Coast area are reminded that opportunities for civil service positions at Navy Headquarters in Washington are still open to them as the Navy Department continues its civilian retraining program in New Orleans.

Even though the outcome of the situation in the far east is uncertain, qualified clerical workers are still needed in Navy Headquarters bureaus in Washington to help maintain and carry out our program for strong defense. Some of the positions open are in the Navy Annex and Pentagon building, but most of them are in the main Navy building on Constitution Avenue.

The response in the New Orleans area has been good so far, the Navy civilian representative reported. Typists are being hired at civil service grade 3, or a beginning salary of \$2650 a year. Stenographers are offered the same salary, although those who have had at least six months' experience may be able to qualify at grade 4, or \$2875 a year to start.

The Navy representative, who will discuss the positions with applicants, administer the qualifying tests and recommend for hire those who can meet the requirements, is located at the Navy Recruiting Station, Room 302 at the U. S. Customs House, 423 Canal Street, New Orleans. Evening or Saturday appointments may be made by telephone. The Navy representative is prepared to discuss living costs and housing arrangements in Washington with applicants.

On Saturday night, August 11, a huge crowd paid a surprise visit at the Ortte residence on Poinsette avenue to present a gift to Mr. Ortte.

Jimmy Roos was the guest speaker and spoke for the crowd, extending thanks and appreciation for all the good things Mr. Ortte has done for everyone. In addition to the gift presented by Mr. Tyler Saturday night, Mr. Ortte will receive a loving cup at a later date.

The honoree was quite surprised and said he would never forget this occasion.

Refreshments were served by Mrs. Ed Ortte, assisted by her daughter, Mrs. Russell Elliott.

Elaine Marie Necaise Observes 5th Birthday

Elaine Marie Necaise, daughter of Mr. and Mrs. Edward Necaise, celebrated her fifth birthday at the home of her grandparents, Mr. and Mrs. John Collier, with a few of her little friends attending.

Favors of balls, horns and balloons were given to the children after which games were played. Prizes were won by Charlene Benigno, Sheila Favre, and Katherine DiMeria. Refreshments of ice cream, cake and candy were served.

SPECIAL ANNOUNCEMENT BY ED P. ORTTE

I wish at this time to make it very clear to the Voters of Beat 5, that I am an INDEPENDENT CANDIDATE. HAVE ALWAYS BEEN AND ALWAYS WILL BE.

In the second primary I am running my campaign independently of all other candidates.

In a second primary there is always a misunderstanding among Candidates, as to who is supporting who. Some people and candidates will align a candidate with their choice. Others for the benefit of achieving votes will disclaim a candidate or a group's support, in other words they will do whatever they feel will best benefit them.

I am supporting no particular candidate in the other races. In each of the other races I WILL VOTE FOR THE CANDIDATE I FEEL IS THE BEST QUALIFIED.

Thanks

ED P. ORTTE

Paul B. Johnson For Governor

Farmer Veteran Lawyer

PAUL JOHNSON ADVOCATES

1. \$50.00 monthly old age pensions.
2. Adequate health center or hospital in each county.
3. Minimum teachers' salary of \$2400.00 per year.
4. \$3.00 automobile tags.
5. Free toll bridge over the Bay. (His father freed the Pascagoula toll bridge.)

6. Better pay for school bus drivers
7. Rural electrification and telephones then expanded R. E. A.
8. Elect, rather than appoint, a member of the Sea Food Commission from each Coast County to efficiently protect the sea food industry.

I am a States' Righter by choice and heritage. I intend to promote the interests of the States' Rights Movement in Mississippi. I dedicate myself to fighting Trumanism.

My opponent in this race, who is a fine OLD man, has, in the last hours of this race, strayed from the main issues in this campaign which would bring benefit to the average man of Mississippi, and has attempted to make the people believe I am not a States' Righter and that He is a States' Righter; but my opponent is the same man who, in 1936, when he was Governor of the State of Mississippi, headed the Mississippi delegation to the National Convention, and cast the deciding vote repealing the 23 rule, forcing the South to submit to Northern Federal power!

I am receiving the open support of Senior Senator James O. Eastland, who is the undisputed father of the States Rights program. Senator Eastland was the first to propose the States' Rights program and has since vigorously fought such meddling legislation as the FEPC and other so-called Civil Rights Bills. Neither my opponent nor anyone can truthfully say that I am not a vigorously and aggressive States' Righter. Senator Eastland is a responsible human being can believe that he would support me in my race for governor if I were sympathetic to any phase of the Truman plan. On the contrary, he would vigorously oppose me to the last breath.

Therefore, don't be misled, don't be misguided by such last minute falsehoods! Let's retire this honorable, OLD gentleman who seeks more prestige and power even at the expense of casting dispersions against Paul B. Johnson and his splendid supporters.

Let's elect PAUL B. JOHNSON, who is young and aggressive, and give the government back to the PEOPLE of Mississippi.

FOR A PROGRAM OF ACTION! SEND JOHNSON TO JACKSON

IN THE SEA COAST ECHO FIFTY YEARS AGO

At no time since the violent hurricane of 1893 was this section visited by such a storm as the one this week. The hurricane raged along the coast for about 48 hours, hitting it first early Thursday morning.

Piers and many homes were left shattered in the wake of the storm. With remarkable promptness, Street Commissioner Bangard went immediately to work with a large force of men, and all washouts on the beach road have already been filled. Street Commissioner Ruhr, of Waveland, has also been working for the reconstruction of the wrecked beach road.

Losses in both Bay St. Louis and Waveland are said to be severe, but no monial estimates have been made yet.

—Enterprising and up-to-date, the New Orleans Daily States will print a series of views of Bay St. Louis. These cuts will be made by the half-tone process and will be true to the photos.

—Prof. John A. Hammersbach, who is presently touring through Canada, will be back home in about a week.

TWENTY FIVE YEARS AGO

Early results received Tuesday evening, after all voting precincts had closed over Hancock County, gave assurance that the bond issue for the \$1,250,000 seawall and road protection plan had carried. This issue calls for the repairing of Bay St. Louis' seawall and the construction of a seawall in Waveland.

—Misses Miriam and Levia Engman will leave shortly for a trip through the North and East. They will stop principally in St. Louis, Missouri, where they plan to visit relatives.

—Mr. J. A. Osinach is spending a while in Bay St. Louis, visiting at the home of his parents, Mr. and Mrs. John Osinach, and family. He is also visiting many of his old boyhood friends.

Recreation Head Compliments Bay St. Louis on Weekend Hospitality for Camp Shelby Boys; Annual Church Fair Big Success; Defense Aluminum Sought; City Schools To Open for Registration, September 5; Bay High Summer Band Concert Friday.

—Mrs. Randolph Bourgeois and her sister, Mrs. Simon Necaise left last week for Chicago where they will remain for several weeks, visiting and enjoying sight-seeing in the Windy City.

—Miss Mary Ruth N. son, sister of Mrs. F. R. Curran, left the Bay Monday accompanied by her father, Dickie Curran, who will visit with Miss Nixon at the home of her parents in Dodson, Louisiana.

FIVE YEARS AGO

The process of demobilization is being followed by a campaign for expenditures in connection with the programs of the Army and Navy.

Naturally the United States government should not spend more than is reasonably necessary for its protection in connection with the armed services, but one should not overlook the danger of basing the service programs upon a policy of economy, rather than a policy

of defense.

We are among those who believe that long-range economy is served by a continuing program of defense. In two wars, the nation has been compelled to mobilize at exorbitant costs because of imperative necessity. This process has cost the taxpayers billions of dollars. It might be avoided if a future emergency arises by a policy of reasonable, but complete, preparedness. Editorial

—Rita and Margaret Boh left this week for Chattanooga, Tennessee, where they will visit their uncle and aunt, Mr. and Mrs. George Boh.

—Mr. and Mrs. O. J. Farnsworth, of New Orleans, who are stopping at the Edgewater Gulf Hotel, visited Dr. and Mrs. T. B. Sellers Sunday.

STATE POLIO TOLL RISES

A seven months' roundup of state and national polio news was issued last week by the Mississippi State Polio Planning Committee, Dr. Felix J. Underwood, chairman.

POLIO INCIDENCE HIGH

August (To Aug. 7)	1951	1950
July	37	20
June	102	59
May	14	37
April	5	7
March	7	5
February	15	6
January	9	11
	13	4

TOTAL

Forty-nine counties have been hit by polio since January 1. Highest incidence has occurred in:

County	No. of Cases
Sunflower	45
Harrison	21
Washington	21
Bolivar	11
Hinds	10
Warren	10
Leflore	9

The recent picture of polio in the State as a whole and, in particular in the region around Sunflower County, indicates that we are in for pretty serious trouble throughout the month of August, particularly in the region around Sunflower County and probably in other areas of the state.

RESEARCH SCIENTISTS TO SUNFLOWER

Dr. Lisbeth Kraft, Research Scientist from the Yale Virus Research Center, has come to Mississippi at the request of the State Board of Health. Dr. Kraft is studying the "unusual" polio situation in Sunflower County.

The Yale Virus Research Center of Yale University is under the auspices of the National Foundation and is one of several institutions receiving March of Dimes grants for polio research.

EMERGENCY COMBATANTS

Four respirators have been sent to the Lutheran Hospital. One was flown from Pascagoula by Keesler Field plane; one was flown from Birmingham by Maxwell

Field plane; two were sent from the National Foundation's equipment pool in Atlanta.

One physical therapist and four Red Cross nurses have been recruited and are now on duty in Vicksburg.

MARCH OF DIMES EXPENDED AT RAPID RATE

Twenty-four National Foundation for Infantile Paralysis chapters in Mississippi have depleted local funds in meeting the cost of patient care and \$56,800 has been sent to these chapters as follows:

Amite, \$2,100; Attala, \$1,250; Benton, \$3,600; Bolivar, \$2,500; Coahoma, \$3,500; Covington, \$400; Humphreys, \$300; Jasper, \$800; Jones, \$4,000; Madison, \$2,600; Marion, \$4,050; Marshall, \$4,000; Montgomery, \$2,300; Neshoba, \$900; Newton, \$2,400; South Pearl River, \$2,250; Prentiss, \$700; Simpson, \$1,650; Smith, \$1,250; Sunflower, \$3,500; Tallahatchie, \$750; Tate, \$650; Tunica, \$850; and Washington, \$10,500.
--

PATIENTS HOSPITALIZED

Eighty-seven Mississippi patients are hospitalized at present—67 in the Lutheran Hospital, 20 in the Mercy Hospital (Vicksburg). Three are hospitalized in out-of-state hospitals.

THE NATIONAL PICTURE

Polio incidence in 1951 as of August 2, has dropped in comparison with last year's toll.

Since January 1, the National Foundation has shipped the following emergency equipment:

136 respirators; 39 hot pack machines; 32 cribs; 20 beds; and 215 pounds of wool.

CHAPMAN REUNION

A Chapman family reunion was held at the home of Mr. and Mrs. J. W. Dupaquier over the weekend. Mrs. Dupaquier is the former Miss Alice Chapman.

Those attending the reunion were Mrs. Carl Marshall, of New York City; Mr. and Mrs. Lawrence Chapman, of New Orleans; Mr. and Mrs. Wallace Chapman, of Biloxi; Mr. and Mrs. Henry Chapman, Mr. and Mrs. Norvin Penrose, Mr. and Mrs. William Watts and Mrs. Gladys Chapman, all of the Bay.

—Mrs. Eugene Mogabgab entertained last Wednesday with an informal canasta and bridge party of two tables in honor of her daughter and daughter-in-law, Mrs. Robert Dominy and Mrs. Eugene Mogabgab Jr. Mr. and Mrs. Robert Dominy and two daughters will leave for Atlanta, Georgia, their home, Saturday morning.

Congressional Sidelights

by Congressman Wm. M. Colmer

TIDELANDS

The House recently again approved overwhelmingly the tidelands bill, which would vest title to these lands in the states. As in previous Congresses, the opposition to the bill was very militant and bitter in its denunciations.

One of the claims made by the anti-states' rights forces which opposed the tidelands measure was that it was being pushed by the "Lavishly financed Oil Lobby". That is a typical technique often employed by special interests in attempts to arouse prejudice and venom to take the place of merit and reason. It is reminiscent of the old Communist Line, now used constantly in Pravda and the Daily Worker, which proves every anti-American point by simply describing it as a "Wall Street Profit-seeking stunt" or as a product of "Wall Street war-mongers", etc.

Certain left-wing columnists use this technique all the time in their attempt to play on prejudice and to poison the unsuspecting reader. For example, all during the fight for socialized housing everyone who dared oppose this British-type plan for America was described as a victim of the "Big Real Estate Lobby". Socialized medicine is, of course, according to these sources, opposed only by those who surrender to the "Mig American Medical Association Lobby". And so it goes.

Getting back to tidelands, the simple truth is, as everyone knows that many of the oil companies favor Federal ownership, or else do not care one way or another. The oil companies will get about the same return, under the same royalty interest in production, whether the States or Uncle Sam happens to be the other contracting party.

The moral is: Beware of the arguments of those who, in the absence of facts to support their arguments, use the "Big Lobby" hoax when there actually may be no lobby at all involved other than the "Big Lobby" of which those who use that old time-worn technique are members.

DEFENSE

With only two dissenting votes, the House last week provided \$6 billion dollars for the Army, Navy and Air Force and the office of the Secretary of Defense for fiscal year 1952. This is the largest appropriation bill ever voted for this purpose except when we were engaged in an all-out-war. Although we have had some seventy thousand casualties in Korea we are still technically not at war.

While there was no opposition to the bill as a whole, there were stiff skirmishes on several amendments to it. One of these would prevent military men from retiring unless they are actually physically disabled to perform their duties or have attained the retirement age. In the course of debate on the amendment attention was called to the fact that during the past few months several admirals and generals had retired at the age of from 47 to 52 either simply because they had not been selected for promotion or because they disagreed with the policies of their service. Another amendment provided that no funds appropriated by the bill should be used after November 30 to pay inactive or volunteer reservists who had served 122 months during World

Anhydrous Ammonia For Winter Grazing Crops In Mississippi

Experiments Show Anhydrous Ammonia To Be Good Source Of Nitrogen For Winter Grazing Crops

STATE COLLEGE, MISS. - Experiment Station studies showing that anhydrous ammonia is an excellent source of nitrogen for fall and winter grazing crops are of interest to livestock producers now preparing to plant oats, rye grass and similar crops.

Tests conducted by the Experiment Station for several years have shown that anhydrous ammonia is as effective as ammonium nitrate for the production of winter forage, according to Dr. W. B. Andrews, agronomist. Although there is a shortage of nitrogen which may continue for several years, anhydrous ammonia is available to Mississippi farmers for fall use, Dr. Andrews said.

A special applicator, developed by the Experiment Station for use in tung orchards, is superior for the application of anhydrous ammonia to sod crops like fescue. On trashy lands anhydrous ammonia can probably be applied with these applicators more satisfactorily before breaking than after the seed bed has been prepared.

Anhydrous ammonia applicators should be spaced 18 inches apart and the ammonia should be placed 4 inches deep in the soil. Where anhydrous ammonia is used on poor soils, Dr. Andrews suggests, apply 100 pounds of nitrogen before planting rye grass and oats for forage; on fertile soils apply 50 pounds of nitrogen per acre at planting time. An early March application of 50 pounds of nitrogen per acre is recommended for spring grazing or grain production. The fall application for fescue is the same as for the rye grass and fescue.

In addition to the nitrogen requirement, most winter grazing crops on soils in the hill section of the state need 60 pounds of phosphate, and the more sandy soils may also need 25 pounds of potash per acre which should be applied at planting time.

"Some anhydrous ammonia now being produced will be channeled into industrial uses unless farmers apply it to their soils this fall," Dr. Andrews points out. "Storage space is not sufficient to hold it until Spring. Use of anhydrous ammonia this fall will permit solid nitrogen fertilizers to be saved for use in the spring when the nitrogen shortage is usually most acute."

War II, had been recalled to active duty, and had served an additional 12 months since then. The effect of the amendment would be to limit the service of reservists recalled involuntarily to 12 months. There was a provision to this effect in the U. M. T. Bill as it passed the House but in conference the limitation was raised to 17 months. Both of these amendments were adopted.

WEEKLY NEWS

by W. F. BOND, Commissioner State Department Public Welfare

The Legislature appropriated monies to the Department of Public Welfare for training and employment of blind citizens, as we have mentioned in previous letters. This Industries for the Blind and Training Center is ably managed by N. B. Price from Crystal Springs.

\$1,000,000.00 worth of contracts for war work has been received since the Korean War started. These workers make one-half million cases per month for the armed forces. They make 3,600 dozen brooms per month, half of which are sold to the armed forces and half of this and 1200 dozen mops are sold to the retail stores in the state.

Blind workers earned \$4,600.00 in the year ending June 30th. All workers are paid by the piece, thus earning all they receive. We are accepting from the government an order of from 20 to 40 thousand surgical wrappers and surgical drapes per month which will be an added skill to teach to workers. A happier more contented group of workers one would go far to find.

This splendid training and work center for the blind has been made possible through the generosity of the Mississippi Legislature.

Honors New Resident

Mrs. John F. Dicks entertained at a small luncheon party on Wednesday last week at the Bay Waveland Yacht Club complimentary to Mrs. Stephen Munson who has recently come to Waveland to make her home.

Your HEALTH
The State Health Officer Says:

Have you ever thought of yourself as helping to improve the health of all Mississippians? The truth of the matter is that you - the individual citizen - have made possible the development of a far reaching public health program in

our state. You've done this by supporting the movement of leaders to supply evermore with full-time health department services; by electing officials who would support the movement; and by participating in the services - such as immunizations, blood testing, x-ray, and the like - which are offered by your health department. The result of this interest in public health is that out of Mississippi's 82 counties, 80 now have organized full-time health department services.

In some cases, counties have been consolidated for better and more economical health services. Some of the larger health departments have an up-to-date laboratory and clinical services. Under the competent administration of a medical health officer, you may receive in your community the services of well-trained sanitarians, public health nurses, dental hygienists, health educators, nutritionists, venereal disease investigators, veterinarians, and clerical workers.

On a national basis, great progress has also been made. But there is room for much more. Only six states have complete coverage; one-third of the nation's people still lack basic health services. Mississippi will soon have complete coverage with local health organizations. This will strengthen our status as one of the foremost leaders in public health and will

make Mississippi an ideal state from the public health point of view.

Trained public health workers and private physicians - with your support and that of your municipal county and state officials - can help to give our state a healthy citizenry. And a healthy citizenry is necessary in making our state a real leader in every way.

The Store of "Three Wonders"

Jackson, the ex-forest ranger, claims that when he gets too old for guiding fishing parties, he's going to guide shoppers—through "Dad" Hall's general store.

Might not be a bad idea. Cluttered up the way it is—with all that hardware, feed, dress goods, and what-not piled everywhere—a person could get lost in "Dad's" store. Dark in there, too.

The sign over the door says "Hall's Emporium, Gen'l Mdee" but a poster in the window explains things better:—"The store of the 3 wonders. You wonder if I have it... I wonder where it

is... everyone wonders how I find it!"

From where I sit, "Dad" couldn't operate that way anywhere but here—where he's a sort of "privileged character." Contrast him with Andy who operates the Garden Tavern! Co-operating voluntarily with the Self-Regulation Program sponsored by the Brewing Industry, Andy keeps his place clean and orderly. He's a good businessman... and no "wonder!"

WOODS FIRES are errors in any league

In an average year forest fires burn over 30 million acres in the U. S.

America's wood using industries—lumber, paper, plywood and others—need trees to cut into the things all Americans need. Forest fires destroy standing timber, damage growing trees, and actually reduce potential payrolls of those employed in wood manufacturing. YACHT CLUB NEWS

PASS CHRISTIAN

The Pass Christian Yacht Club now boasts a membership of 250 seniors, 30 associate, 123 juniors and 2 sailing wives.

Last month was probably as big a month as far as activity goes as the club can have with the present facilities. There were card games, Saturday night dinners, Sunday luncheons, junior parties, Women's Auxiliary lunch-

cons, square dancing and 2 high lights of the month, the rescue boat party and the fish class party.

Mr. Syd Ellis really went over the top with the rescue boat party. Through the various activities and dance the club raised ample money to pay for the rescue boat, and in addition, outfit it and keep it in repair for a year. Work is going forward now, and the boat will definitely be ready for use next year.

The fish class party also reached a substantial amount which has been put aside wholly for the upkeep of the fish class boats, including new sails if and when needed. This party made it possible for the P. C. Y. C. to be one of the few clubs in the Gulf Yachting Association to operate a fleet of boats without charging racing fees.

The racing season is drawing to an exciting climax with the Knost Trophy Regatta, which will be sailed on the Pass Christian course this weekend, and the Lipton cup regatta just over the horizon.

The leading skippers to date are: Expert: T. Schmidt; Skipperette, Ann Liverseed; Class "A", Jimmie Terrell; Class "B", Warren Adam.

P. C. Y. C. enjoyed a good month in the inter-club races with both Tut Johnson and Fred Demetz winning their races at the Bay-Waveland Regatta July 13.

At the fish class dance the juniors presented Captain McIntosh, Ann Liverseed and John Curran, with trophies in recognition of the help this trio has given junior sailing.

The tentative racing schedule for the remainder of August is as follows:

August 18 and 19—All girl Knost Trophy Regatta.

August 25—Expert Round Robin.

August 26—Expert Round Robin, M. C. Y. A. race at the Pass August 25 and 26—Invitational Regatta at Gulfport.

Other club activities include junior night, August 24 and dinner and Monte Carlo night on the 25th.

The Shipwreck dance held Saturday night, August 11, 1951, at the Pass Christian Yacht Club was a very fine festive occasion. Members and guests attending included: Messrs. and Mesdames Charles Lancaster, Charles D. Talor, Sr., Edwin Smith, Lynn E. Cook, Preston Breckinridge, A. M. Phelan, J. Charbonnet, William V. Robinson, William F. Adams, William Connelly, Grady Mangum, Harry Wittmann, Leo Allen, W. Van Landingham, Warren Adam, John A. DeMetz, John H. Lang, John M. David, Dudley H. White, John King, W. R. Crippen, Jr., Charles Tessier, C. Randall Jones, Jr., William R. Allen, Jr., A. E. Waltman, Robert L. Morris, 3rd; William A. Lighter, Jr., Emmett Parker-

sonson, Leon King, Dr. and Mrs. C. D. Toyler, Jr., Dr. and Mrs. E. A. Gamard, Jr., Dr. and Mrs. George W. Byrne, Jr., Col. and Mrs. Dayton L. Roberson, Major and Mrs. Randall Jacobs, Commander and Mrs. J. H. Walsh, Mesdames Fay Brennenman, Shirley Farrell, J. M. Buford, Misses Rita Lizana, Irma G. Meyers, W. J. Lambly, and John Gordon.

Prizes for the best shipwreck costume were won by Mrs. E. A. Gamard and Johnny DeMetz.

Jimmy Arrington Thanks The Voters

I deeply appreciate the thousands of Mississippians whose votes and influence placed me in the second primary, and I shall ever be grateful to those of my opponents and their supporters who have now, and will later, join my campaign and assist me in becoming victorious on August 28th.

It is evident that my first primary campaign was sabotaged by base and false rumors concerning my health. Pernicious political prevaricators peddled these untruths over the state, and I here and now challenge my opponent in this run-off to a comparative physical examination.

Not only am I confident that I can meet any physical test, but I am anxious to stand the test of the issues of this campaign as defined by the candidates for Governor.

I come from, and understand the ordinary people of Mississippi and their problems. I neither inherited nor married into wealth, but through hard work and determination, earned, by the sweat of my brow, that which I now possess.

Having earned that which I have, under the free enterprise system, I will fight for its continuance, and because I belong to the people, I will represent them and will forever be their champion and defender against exploitations.

My stand and record on States Rights is beyond question, and my devotion to the principles of that cause, and my contribution in its behalf is a matter of record.

Having gained a place in the second primary with only the help of the people, and not the politi-

cians, I likewise will, with the continued help of the people, become Mississippi's next Lieutenant Governor.

JIMMY ARRINGTON

CARD OF THANKS

I want to thank you for the splendid vote you gave me in the first primary in my campaign for re-election to the office of Highway Commissioner. I am grateful to know that you appreciate the efforts I have made to serve you fairly, honestly, and impartially.

I earnestly ask for your continued support in the second primary. I want to carry on uninterrupted the long range road program that we have planned. For your continued support I thank you and pledge you my best in ability, effort and experience.

Sincerely,

JOHN D. SMITH

LEADING CANDIDATE
OF
SUPERVISOR RACE

I assure the voters again that I am strictly an INDEPENDENT candidate and am quite confident that the public believes this to be true because of the wonderful vote they gave me in the first primary.

The figures of the 1947 and 1951 first primaries are as follows:

1947 votes (Hubbard)	369	Ortte	1097
1951 votes (Hubbard)	649	Ortte	593

Hubbard increase 280 Ortte decrease 504

These figures show that since the first primary of the 1947 election, my opponent has lost popularity whereas I am steadily gaining. This trend in the voting indicates that the people definitely want a change in the office of Supervisor, Beat 5.

Since the people made me the leading candidate in the first primary, I sincerely solicit their vote and support in the Second.
